

# Femi Ajanaku

Software Developer

## SUMMARY

Enthusiastic and dedicated software engineer with a focus on web application development. Proven ability to deliver high-quality code and solutions. Eager to contribute technical skills to dynamic projects.

## EXPERIENCE

### Software Developer — Vendbite, Remote

February 2024 – PRESENT

- Designed, developed, and deployed reusable React components, driving efficiency in the SDLC.
- Collaborated closely with Project Managers and Product Owners to align development efforts with business priorities and improve overall workflow.
- Participated in the deployment of software across different environments using established DevOps practices, enhancing operational efficiency.
- Refactored legacy code to modern standards, reducing maintenance overhead by 50% and improving scalability.
- Technologies: NextJS, Tailwind CSS, Zustand, Git, GitHub, AWS, Kubernetes, Microsoft Power Automate

### Software Developer — Basicons, Remote

SEPTEMBER 2023 – FEBRUARY 2024

- Developed and maintained scalable web applications with a focus on user experience and performance.
- Worked with backend engineers and UI designers to ensure seamless integration and technical feasibility.
- Improved tools to boost user interaction and deliver design versatility.
- Implemented modular code bases, reducing operational costs and improving system performance.
- Technologies: React, Typescript, Git, GitHub, PowerShell

### Web Developer — Freelance, Lagos

JANUARY 2023 – SEPTEMBER 2023

- Delivered custom web solutions to clients, meeting business objectives within tight deadlines.
- Advocated for high-quality, tested, and well-documented code, ensuring long-term maintainability.
- Achieved consistent client satisfaction and repeat business through high-quality project delivery.
